

22 kW

Reliable Industrial Performance for Medium Applications

22 kW Screw Compressor – 10 Bar

The 22 kW screw compressor is a powerful and efficient solution for medium-scale industrial operations that require continuous compressed air. Designed with Italian screw technology, this model delivers stable performance at 10 Bar, making it suitable for demanding industrial environments.

Technical Overview – 22 kW (30 HP)

- Power: 22 kW / 30 HP
- Working Pressure: 10 Bar
- Operation: Continuous duty
- Available Options: VSD, air dryer, line filters
- Electrical Supply: 380V / 3 Phase / 60Hz

Typical Applications

- Metal fabrication workshops
- CNC machining centers
- Packaging and printing factories
- Plastic processing and injection molding
- Medium-size production lines

Key Advantages

- Stable airflow for production continuity
- High efficiency motor for energy savings
- Robust design for harsh industrial conditions
- Easy maintenance and long service intervals
- Full technical support within Saudi Arabia

Lubrication
Lubricated

Air outflow
3000 l/min.

Max. pressure
10bar / 145psi

Power
22 kW
