

DDG8800-1

High Power for Heavy-Duty Demands

DDG8800-1 | 8.3KW Diesel Generator (220V)

The DDG8800-1 delivers strong and reliable single-phase power for demanding applications. Designed for high-load usage, it is ideal for construction sites, large homes, and commercial operations.

Key Features:

- Rated AC Output: 8.3KW (Max 8.8KW)
- 220V single-phase output
- Power Factor: 1.0
- High current capacity: 37.7A
- 12V DC output
- Heavy-duty diesel engine at 3600
- Reinforced frame for durability

DIESEL FUEL ONLY

12.5L

Rated AC Output
8.3KW

Max. AC Output
8.8KW

Power Factor (Cosφ)
1.0

Rated AC Voltage
220V

Rated Current
37.7A

DC Output
12V

Frequency (rpm)
60Hz (3600rpm)

Weight
130 Kgs
