

# DK-MVD3845-32

Maximum Industrial Force for Ultimate Cooling

## DK-MVD3845-32 | 3845 Watt Moveable Ventilation Fan

The DK-MVD3845-32 is the flagship 32-inch model, representing the peak of moveable air management. Delivering an incredible 750 m<sup>3</sup>/min, it is engineered for massive infrastructure projects and large foundries. When comfort and safety require the highest capacity of air exchange, this unit is the definitive professional choice.

### Key Features:

- 800mm Diameter: The largest available diameter for maximum total air displacement.
- 3,845W Peak Power: Extreme motor performance for the most challenging environments.
- 350 Pa Pressure: Delivers high-force airflow across even the largest job sites.

**Diameter**  
32"/800mm

**Power**  
3845 Watt

**Voltage**  
220V

**Frequency**  
50/60Hz

**Airflow**  
750 m<sup>3</sup>/min

**Pressure**  
350Pa

**Speed**  
1,719rpm
