

DDG6300-1

More Power, Same Dependability

DDG6300-1 | 6.0KW Diesel Generator (220V)

The DDG6300-1 offers increased power capacity while maintaining stable single-phase 220V output. Ideal for workshops, retail shops, and backup power applications, it balances performance, efficiency, and durability.

Key Features:

- Rated AC Output: 6.0KW (Max 6.3KW)
- 220V single-phase power supply
- Power Factor: 1.0
- High current output: 27.3A
- 12V DC auxiliary output
- Diesel engine running at 3600 RPM
- Durable structure for long-term operation

DIESEL FUEL ONLY

12.5L

Rated AC Output
6.0KW

Max. AC Output
6.3KW

Power Factor (Cosφ)
1.0

Rated AC Voltage
220V

Rated Current
27.3A

DC Output
12V

Frequency (rpm)
60Hz (3600rpm)

Weight
112 Kgs
