

DPG3000

Compact Power for Everyday Needs

Gasoline Generator | Air Cooled, Single Cylinder, 4 Stroke OHV

The DPG3000 is a compact and economical generator designed for light-duty applications. With a maximum power of 3.0 kW, it is ideal for home backup, small tools, and outdoor use. Its lightweight design, manual or electric start option, and efficient fuel consumption make it easy to transport and operate.

Key Features:

- Maximum output of 3.0 kW for light-duty power needs
- 220V / 60Hz stable power supply
- AVR voltage regulation for safe and consistent output
- Air-cooled, single-cylinder, 4-stroke OHV engine
- Manual or electric start option
- Compact size and lightweight design for easy transport
- 15L fuel tank for extended running time
- Ideal for home backup, camping, and small tools
- 100% Copper Wire

Rated Voltage
220V

Max. Power
3.0 Kw

Rated Power
2.8 Kw

Rated Frequency
60 Hz

Oil Capacity
0.6 L

Fuel Capacity
15 L

N.W/G.W
48/50 Kg

Package Dimension
610x450x450 mm
