

DK-TIP7502

Precision Threading for Standard Plumbing

DK-TIP7502 | 1/2" - 2" Capacity Pipe Threading Machine

The DK-TIP7502 is a professional-grade threading machine designed for high-accuracy pipe preparation in residential and light commercial plumbing. Powered by a 750W single-phase motor, it delivers consistent torque at a steady spindle speed of 28 Rpm. This 66kg unit is built for durability and stability, providing clean, leak-proof threads for pipes up to 2 inches in diameter.

Key Features:

- 2" Capacity: Optimized for threading pipes ranging from 1/2" to 2".
- Reliable Power: Equipped with a 750W, 1-phase motor (220V/60Hz).
- Steady Performance: Constant spindle speed of 28 Rpm for uniform thread quality.
- Heavy-Duty Build: Solid 66kg construction ensures minimal vibration during operation.

Motor
750 W, 1-Phase

Voltage
220V/60 HZ

Capacity
1/2" - 2"

Spindle Speed
28 Rpm

Weight
66 Kgs
