

Cubix<sup>+</sup> Plus provides complete hygienic solutions combining unsurpassed hygiene and durability with high-performance and style.

Protect your facility with Cubix<sup>+</sup> Plus hygienic wall coverings. Our wall coverings and Phenolic HPL partitions with finish create areas and surfaces that deliver unsurpassed hygiene and durability for commercial environments such as medical and pharmaceutical facilities, laboratories, sterile areas, restaurants, food processing plants, and educational institutions.

Our solutions of FRP wall coverings and Phenolic HPL partitioning solutions are 10 times more cleanable and 6 times more stain resistant, providing barriers that's highly resistant to impact and scratching. Because of it's unique process, our hygienic panels from Crane Composite with Surfaseal film finish will not trap soil or bacteria on the panel. The surface is easier to clean and more stain resistant than other sanitary wall systems.

### Advantages

- ▶ High Quality Insulated Panels Perfect for Hygienic Applications
- ▶ Resistance to Bacteria, mold and other contaminants
- ▶ Design and color selection of partitioning and phenolic HPL furniture and lockers
- ▶ Wide Selection of colors and designs of products.

### HPL Phenolic Panels Advantages

- ▶ Anti-impact
- ▶ Wear resistance
- ▶ Non-toxic, non-polluting, completely hygienic
- ▶ Moisture proof, waterproof, mildew proof
- ▶ Chemical resistance
- ▶ Heat resistant, resistant to smoke
- ▶ Anti-static, no radiation
- ▶ Antibacterial, easy to clean, UV resistant
- ▶ Rich surface treatment and various colors
